New Laws Needed for Game of Duplicate Auction

Many Important Points Not Covered by the Code in Force-Clubs Now Have Rules of Their Own-The Strength Takeout.

the game of duplicate auction more popular and contests are becoming more common, there it arises a demand for something a more complete than the present for duplicate, which are attached a official code for the ordinary r, issued by the Whist Club of York, ever drew up the rules referred as evidently unfamiliar with the

altes no difference how played before changing a laws for that game as if there were never leate auction it is contact auction it is contact and that each of the op-

rs should have an equal chance ; assume that risk equally.

The fallacy of this argument lies in assuming that the player who bids no trumper. Taking it for granted that he is able to win five of Saturday afternoon is by no means or six tricks with his alleged no trumper.

New York has become so extremely new York has become so extremely of late years that of or in four, but a line must inder the opponents' score e is won. That is, if A and ints on the first deal, Y and on the next and A-B 20 there is no game won because, although they

vering irregularities in the ght, as it refers to the

THE IMPORTANCE OF SATURDAY

Half Holiday Extending to All Occupations and Professions -Forms of Amusements.

INCREASE OF LUNCHEONS THE football to

Y all odds Saturday is the most B popular day of the week, does not mean one particle more to the so-called working classes drew up the rules referred dently unfamiliar with the orkings of the game, and he such things go.

By mistake, N and S played the first and third one after the other, scoring this would answer every pursus to all who have taken partitle large duplicate matches gue. Many important points rovided for and others in so that we find each club rules of its own before the page 44 provides that if the rore 30 or more points below a single deal, they shall add in their honor column as the game won, there being no duplicate.

In age 44 provides that if the game won, there being no duplicate.

Some day it is to be hearts in the second and fourth. Plano hands, as such things go.

By mistake, N and S played the first and third one after the other, scoring and third one after the other, scoring the first game. The E and W got 32 and game. The E and W got 32 and game. The E and W got 32 and game, and 50 for the higher same flesh and blood individually a same flesh and who in reality are of just the same flesh and who in reality are of just the same flesh and who in reality are of just the same flesh and who in reality are of just the same flesh and who in reality are of just the same flesh and who in reality are of just the same flesh first and who in reality are of just the same fles than it does to the so-called idle who are credited with so much that I bad and who in reality are of just the same flesh and blood individually as any other class in the world. The cesextended to almost all occupations, and even in the professions there is a distinct effort to have Saturday afternoon

The week end in the country is per haps the most popular form of amusement, but for the hundreds who go out of town for the week end there are other hundreds who stay in the city on Saturday and merely pass Sunday sate whist, in which the complete in itself, and ation to any other deal nakes no difference how with Saturday. And there is a sort of schoolboy enthusiasm and schoolgir exhilaration in the air that extends to the older members of the family.

As a rule there are not many for suits that is the very thing the partner wants and he should be only too glad to let the no trumper alone and give day. There are a few smart enter tainments, delightfully exclusive and intimate, which are much in favor.

or six tricks with his alleged no trumper he will of course go game if dummy has four or five more for him. Here is one of the hands sent to The Sun as an example of the uselessness of cosmopolitan of late years that of necessity the Saturday luncheon at the fashionable restaurant is as much the thing here as it is abroad, and there is smart set-a disagreeable but usefur term-than the popular restaurant of he moment on Saturdays.

The Saturday matinee is immensely popular, and to lunch at the restaurant and spend the afternoon at th opera or theatre is a part of the fixed routine in the lives of most of the fashionable set. At luncheon are t be seen both men and women, with often the men in the majority. but section 2, when the discovered at the time the Z dealt and bid no trumps. When every Saturday and discuss what will be the discovered at the time the Z dealt and bid no trumps. thought he had just the they not discuss? Certain sets of out his partner's hand, so women will also lunch together, and the tray must be sent he passed, and his good judgment was it is quite the thing for husbands and

the tray must be sent de from which it came setiled there, but there gainst either the player ong number of cards in against the player who coked at a foul hand, h, at table 2 picks up y's cards with his own sixteen into the pocket At the next table, North is cards and finds three ace and king of clubs hings. West, sitting on overs he is three cards

"Had I taken him out with two ways possible to become known by the course of the passed, and his good judgment was amply just field by seeing Z make five wives to lunch together and go to the player who coked at a foul hand. He then saw that if he could catch the king of spades or make two spade tricks and shut out the diamonds he could go game. The spade with a heart and finessed the spade once more. After making four spade tricks he made four more hearts and led a club, making the king at the end, which he had not counted on.

"Had I taken him out with two bings. West, sitting on overs he is three cards if all I taken him out with two hearts," says The Sun's correspondent, but it is said to be one of the best ways possible to become known by sight to be continually at the restaurant of dummy's established ing his tenaces. Y wins, takes the spade. ing his tenaces. Y wins, takes the spade finesse and as soon as it wins draws all the trumps and then leads a club through. B puts on the ace, Y loses a diamond, trumps a diamond and makes the rest. Five odd, just as at no trumps, but at only eight a trick instead of ten."

This is merely a passing thought, that has nothing to do with the real business as regards the Saturday half holiday.

It is amusing to see how Fashion changes her mind—or shall we say in
